

OPULENCE REDEFINED

MUPPA'S INDRAPRASTHA

Legends are replete with stories of architectural beauty and grandeur of the magnificent city of Indraprastha. This iconic city draws its history from the Mahabharata. Soon after the Pandavas entered Khandavprastha, they approached Lord Krishna, their mentor and cousin for help. Upon which Lord Krishna invited Vishwakarma, the celestial architect to design the city of Indraprastha, which was to be built on the lines of Lord Indra's model city Amaravathi. In fact, once Indraprastha was completed, it was so perfect a city it made even Lord Indra envious.

Centuries have passed but Indraprastha is still considered the gold standard for cities. We believe in drawing inspiration from the best, and have even named our project after this great city. Our perspective of Indraprastha seeks to emulate the original in terms of the creative articulation of living spaces. It is in fact a divine plan orchestrated for the discerning few. We have included nature, harmony, unity, equitable spaces, quality, luxury and sophistication as the highlights of the master plan. The cumulative outcome of these well-defined spatial designs is Indraprastha of our times – the land of the Gods for humans on earth.
